## MORSØ ASH & STORAGE BUCKET 15 LITRE STEEL BUCKET

When your wood-burning stove, outdoor oven or fireplace needs to be emptied, it is important to store the ash in an airtight container made of non-combustible material.

Morsø's Ash Bucket is made of steel and has a tight-fitting lid for safe storage until the embers have entirely died down. And why not recycle the ash?

Ash from clean timber makes fine fertiliser for your garden. Wood ash contains a good deal of phosphorus and also has a high content of potassium, which lightens heavy soil and reduces its acidity in the same way as lime.

## MORSØ TRIVET CLASSIC & SQUIRREL DESIGN

This decorative cast-iron trivet, Morso's original trivet, is ideal for both on the dinner table and under a pot plant on the floor. The combination of the heavy cast iron and the airy design with original logo from 1853 gives it a robust, yet at the same time light and elegant look. The trivet has small rubber feet so it won't scratch your table or floor.

If you are going to use the trivet under a humidifier or kettle on the stove, remove the rubber feet first.

If you have a kettle or humidifier sitting on your stove, we recommend placing the trivet under the kettle. It ensures more controlled evaporation.

The trivet is also available with Morso's well-known squirrel motif from the 1930's.

Dimensions (w x d) 25cm x 25cm Material Cast Iron

## MORSØ AXE HICKORY WOODEN HANDLE

The Morso Axe head is forged from C45 high grade carbon steel with a Rockwell hardness of approximately 53-56HRC (According to DIN 7287/B).

## MORSØ CURVA FIRE TOOL SET AND POKER

The bristles on the brush and made from natural hair The brush handle and the dustpan are made from rubber.

With "CURVA", Morsø has created a functional and aesthetically beautiful piece that encompasses all the fire tools in such a way that each product in the series has its own function, and nothing is superfluous.

The dish stores the firelighters, the dustpan holds the brush and also forms the lid of the dish.

A poker for the tool set can be bought separately and fits behind the oven with the aid of a magnet.

To complement the fire tools, Morsø have produced the Curva poker. Made in a pleasing shape but also comfortable to hold, the poker is 46cm long and is magnetic so, when not in use, the poker attaches to the back of the stove to tuck out of the way.

## MORSØ HUMIDIFIER MADE FROM CAST-IRON

---

Made of enamelled cast iron, the Morsø humidifiers are suitable as humidifiers bringing moisture back into your room and as a decoration on the stove. These cast iron kettles are available in two sizes, 2.0 litre or 4.5 litre.

## MORSØ SIMPLICIA HUMIDIFIER

---

Morsø has introduced a another cast iron humidifier featuring stainless steel and rubber.

Called SImplica, the name of the humidifier is derived from the simple and modern idiom that relates to many of the classic Morsø products. The kettle is made of cast iron that has been the basis of Morsø's production since the establishment of the foundry in 1853.

The glossy stainless steel handle contrasts to the black enamelled cast iron and the grip made of solid rubber makes it safe and comfortable when moving the humidifier under all conditions. Its tight round shape is reminiscent of the cast iron pots that for many years were a part of Morsø's product range and the flat top and lid is a tribute to the old Morsø cast iron cookers. SImplica is not only decorative. It will also benefit the indoor environment. The pleasant heat from a wood burning stove may cause unwelcome dry air in the room.

Placing the water filled humidifier on top of a burning wood stove will lift humidity of the atmosphere to a pleasant level as the water gently evaporates. Content: 1,5 litre
