- Burning chamber rotatable by 90°
- Optional thermestone heat storage module
- Steel fabrication
- Deep black colour
- Nominal Heat Output: 5 kW
- Efficiency: 69%
- Room air independent operation available
- Tertiary air supply
- Self cleaning glass panel
- Right or left-hinged door options available

reddot design award

## Emotion

An internationally acclaimed piece of design, Emotion's signature minimalist look is the brainchild of Prof. Wulf Schneider & Partner. Suited to a number of tastes, Emotion makes an impact whether the fire is burning or the stove stands empty, thanks to its elegant appearance, chic wood storage compartment and optional rotating top.

### KEY FEATURES

- Precise air flow controls
- Burning chamber rotatable by 120°
- Optional thermostone heat storage module
- Steel fabrication
- Choose from deep black or charcoal body colours
- Nominal Heat Output: 7 kW
- Efficiency: 71%
- Room air independent operation available
- Tertiary air supply
- Self cleaning glass panel

## Shaker

Designed by Antonio Citterio, Shaker's strong design aesthetic and smaller size make it a perfect match for those looking for a functional piece of art for their space. Despite its compact size, Shaker's heat output is formidable and its fuel efficiency impressive, allowing it to heat a wide variety of areas easily and affordably.

### KEY FEATURES

- Short or long bench option
- Self cleaning glass panel
- Right or left door option
- Steel fabrication
- Body Colour: Deep black
- Heat Output: 7 kW
- Efficiency: 66.5%
