onyx

# ELECTRIC FIRES

fires beyond imagination

# tranquillity on command

Two complimentary control systems put the Avanti's range of visual and heating capabilities in the palm of your hand. Instantly select your favourite settings... and relax.

## Innovative app for complete control

Designed from the ground up to be driven with a powerful app, the Avanti's full potential can be unlocked with an iOS or Android smart device – giving you all the functionality of the remote control and more.

**Finer Tuning**

The app displays all settings clearly on your smart phone or tablet screen, giving you precision control over the Avanti's Chromalight® Plus LED systems. Brightness and flame speed are easily adjustable thanks to the app's slider controls. See page 11 for more information.

**Programmable thermostatic heating and flame visuals**

Easily program your fire to provide different heating schedules using the app. Create up to four daily heating schedules to suit your lifestyle with room to save up to three weekly programs. Flames and lighting visuals can also be scheduled if desired.

*Avanti 190RW with optional Split Silver Birch Log-effect, installed as a two-sided corner fire.*

# Eco Remote

The Avanti's Eco handset gives you control over the fire's core features, which are also controllable via the Avanti app. See page 11 for more information.

# choose your inspiration

## choose your size

The Onyx Avanti is designed to work with your style and interior décor. Available in three sizes, each fire can be installed in a variety of ways to create a statement focal point in your home.

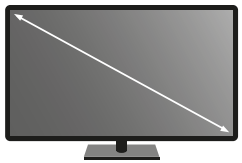
## Avanti fire & tv size guide

### Sizing your Avanti and your TV

Choosing the size of your Avanti electric fire and your TV will come down to both the space you have available and your personal preference. Actual TV sizes vary across manufacturers, and the way your TV is fitted (for example into a cavity recess) will also impact the way it looks in relation to your Avanti fire. Your retailer will often be able to help you size up your Avanti and TV to achieve the perfect look.

### Suggested Avanti and TV size combinations

| Product | TV size* |
|---|---|
| Avanti 110RW | 43” – 55” |
| Avanti 150RW | 50” – 65” |
| Avanti 190RW | 65” – 75” |



*TV sizes refer to the standard diagonal screen dimension that TV manufacturers state when describing the size of their products. If sizing your existing flat screen TV, measure diagonally from the top left of the screen to the bottom right to find the TV’s advertised size. We also recommend measuring the width and height of your TV if lining it up with the Avanti below.

The above information is to assist in your choice of a suitable Onyx fire. It is not intended to be all information required to install your fire. This can be obtained from your local Onyx retailer.

# convenient control

Both the innovative app and Eco Remote Control allow you to adjust the Avanti's array of Chromalight® Plus visuals and convenient heating settings.

### Main Flame and Flame Palette

The Avanti's primary and secondary flames can be independently set to eight different colours or the Spectrum Mode, a rolling cycle that gradually transitions through all colours. Speed and brightness can be tailored to create a bespoke visual.

### Glowing Embers

Beneath the logs and ember effects, the Avanti's up-lighting LEDs can be set to eight colours to either match or contrast with the flames. Like the flames, there is also a Spectrum Mode to cycle through each colour as well as adjustable brightness for all settings.

### Natural Log Lighting

Burnt Ember Logs illuminate the Avanti's Oak or Silver Birch log effects, and feature 12 colours and a Spectrum Mode setting with adjustable brightness.

### Down-lighting

Hidden in the top of the Avanti's firebox are discreet down lighting LEDs which bathe the fuel effects in eight different hues to either match or contrast with the Avanti's other settings, adding to the immersion.

### Synchronise Visuals

The Avanti's Sync feature lets you synchronise the Ember bed up-lighting and down-lighting with the Main Flame colour, to easily create a corresponding display.

### Quick Start Pre-sets

Need instant ambience? Select from any of the Avanti's six stunning pre-sets (shown below) ranging from natural to contemporary. You can also save up to three custom combinations with your preferred settings for easy access.

### Optional Mood Lighting

Effortlessly control the Avanti's optional Mood Lighting system using either the remote control or the app. Choose from 13 different colours or the gradually changing Spectrum mode to transition through each colour.

### Thermostatic Heating

Choose your preferred room temperature and the Avanti does the rest for you. Select between 15°C and 25°C and the fire's 2kW heater will adjust its power to reach the desired level as efficiently as possible. Turn off the heat entirely to enjoy the Avanti's visuals during the warmer months.

### Adaptive Start Control

Adaptive Start allows the Avanti to automatically turn on up to 45 minutes in advance of a pre-set time to reach the desired room temperature, ready for when you sit down and relax.

### Open Window Detection

Should ambient room temperatures drop by 4°C within a space of five minutes, like when a window is opened, the Avanti's heater will automatically turn off to save energy. Heating can be easily resumed with the remote control or app.

### Timers and Scheduling

The Avanti also allows you to programme individual day and weekly schedules for both flames and heat, providing warmth or ambience exactly when you want it.

### Ecodesign Compliant

The Avanti's innovative energy saving features make it compliant with stringent Ecodesign energy product standards.
